

Chapter 3

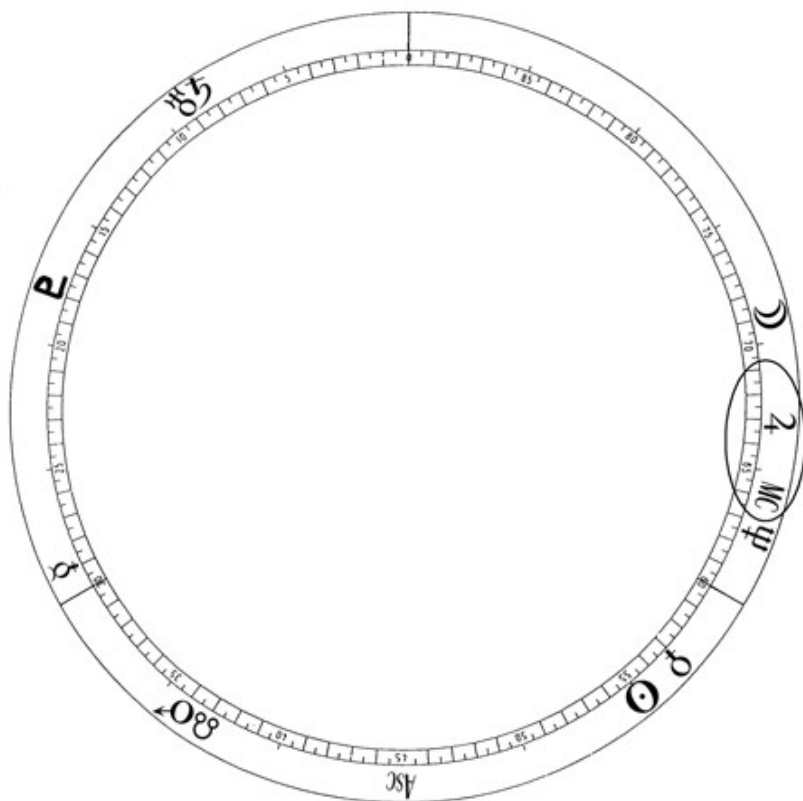

Illustration #3-11 Opposition 90-degree Circle, The Flying Bank Robber

Here you see how the same Opposition of Jupiter and the M.C. appear in the 90-degree circle.

When you see any stellar body opposite another stellar body in the 90-degree circle you know it is in semi-square in the 360-degree circle. See the following Illustration #19 and #20 clarifying this point.

The Cosmogram

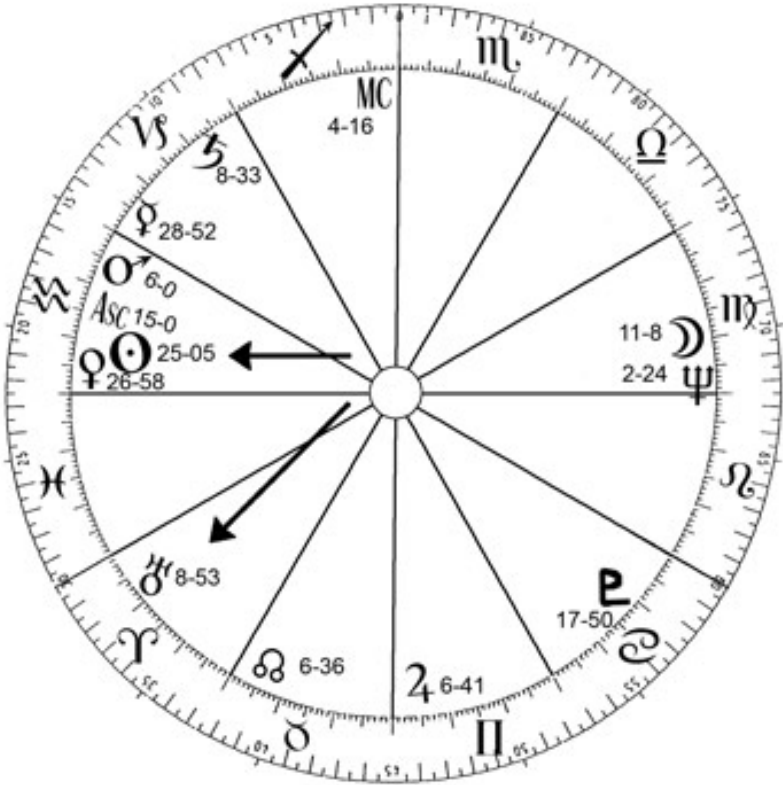

Illustration #3-12 Semi-Square 360-degree Circle, The Flying Bank Robber

Here you see a semi-square of Sun and Uranus in the 360-degree circle.
